

Building Solutions  
for a Sustainable Future

Date: 8/26/2020

Come join an established Weatherization Team to help provide comprehensive building solutions to customers throughout Vermont. This career opportunity requires various duties that increase the energy efficiency of homes through air sealing, insulation, and ventilation. Our company has been in business for nearly 40 years, we offer competitive pay, vacation time, profit sharing and full-time year-round work. You will have the ability to grow and advance within the company.

Applicant must be able to lift up to 50 lbs. on a regular basis, work in a variety of weather conditions and temperatures. Willing and able to position yourself to work in confined spaces as well as perform assigned tasks while crawling or in a crouched/ stooped/ kneeling position for an extended period of time, and able to use basic hand and power tools.

You will be responsible for installing cellulose and spray foam insulation materials, performing air sealing measures, and carrying out basic carpentry projects. Other tasks include, loading materials on and off trucks, cleaning tools and equipment, and maintaining daily activity logs. Field experience in building trades or weatherization work is preferred.

We are willing to train the right candidate! BPI certifications are not required but are always a plus. Must have a valid driver's license with a good driving record and reliable transportation. Willingness to work overtime when necessary to deliver the project on time is a must.
