1. About BPI

Founded in 1993, the Building Performance Institute (BPI) is the nation's premier certification and standard-setting organization for home performance professionals. BPI is accredited by the American National Standards Institute, Inc. (ANSI) as a developer of American National Standards and as a certifying body for personnel credentials. BPI develops the technical standards for home energy audits and for energy efficiency, health, and safety improvements. From these standards, BPI develops rigorous written and field exams resulting in one of BPI's 14 professional certifications. BPI understands the importance of impartiality in carrying out its certification activities, manages conflict of interest and ensures the objectivity of its certification activities.

BPI also offers 3 programs ([BPI GoldStar Contractor](#) for companies, [Rating Program](#) for raters, and [BPI Product Listing](#) for manufacturers) and one certificate ([Building Science Principles](#)). BPI Certified Professionals hold over 18,000 active certifications supported by 130 BPI Test Centers and 340 Proctors. BPI has BPI Goldstar Contractors across the country.

BPI is a 501(c)3 corporation registered in the state of New York. The corporation was incorporated on January 18, 1996 and the corporation number is 14-1789014. The objective of the corporation is to provide credentialing for individuals and corporations involved in the residential retrofit industry. BPI is headquartered in Malta, NY.

2. Introduction

BPI's certification renewal policy recognizes the work experience of BPI Certified Professionals. Field exam requirements may be bypassed under this policy, in certain circumstances, contingent upon proof of relevant work experience. This policy will apply only to Certified Professionals who maintain continuous certification and remain active in home performance roles. **By completing the [Application for BPI Certification Renewal](#), you are attempting to bypass the field exam portion required for certification renewal; this does not apply to the online exam portion (see *Appendix A*). *If you elect to take the field exam portion, there is no need to complete this application.***

Certified Professionals may elect to take the online and field exams to earn recertification, OR, may elect to attempt to bypass the exam(s) in accordance to the requirements set forth in this policy. This policy applies to the following certifications:

- Building Analyst Professional
- Envelope Professional
- Heating Professional
- Air Conditioning & Heat Pump Professional
- Manufactured Housing Professional
- Multifamily Building Analyst
- Multifamily Building Operator
- Air Leakage Control Installer (ALC) – CEUs do not apply
- Infiltration and Duct Leakage (IDL) – CEUs do not apply

This policy does NOT apply towards the renewal of the following certification designations (see *Note).

- Healthy Home Evaluator (HHE)
- Home Energy Professional (HEP) Certifications:
 - Energy Auditor
 - Quality Control Inspector
 - Retrofit Installer Technician
 - Crew Leader

***Note:** Please refer to the certification scheme handbooks at www.bpi.org for certification renewal requirements regarding these designations.

Certified Professionals NOT eligible for this renewal policy:

A Certified Professional must start as a new candidate by taking both the online and field exams for each certification if they fall into either scenario as described below.

Scenarios:

- **If the certification has expired or certification is no longer valid**
- **Any unsuccessful attempt (online or field) toward renewal will end the current certification on the date of that exam; regardless of when the expiration date would have been**

Certification Renewal Window

Certifications are valid for three (3) years. Certified Professionals may start the renewal process up to six (6) months prior to their certification expiration date.

Please note: Certified Professionals who renew their certification more than six (6) months prior to their expiration date will have their new certification begin immediately upon renewal. (e.g. If your certification expiration date is 6/1/2020, and you elected to renew on 10/1/2019 (more than six (6) months prior), your new expiration date would be 10/1/2022)

If the Certified Professional is renewing more than one (1) certification, there is an option to align the certification expiration dates so they will all be the same going forward. The new expiration date will align with whichever certification is expiring first. Certified Professionals who opt to align their dates may initially lose time on those certifications that are aligned.

Applications will not be processed unless **all** information has been completed. Please submit the completed application, requirements, and payment directly to BPI at least thirty (30) days prior to the certification expiration date. Dependent upon volume, application processing may take up to four (4) to six (6) weeks.

Upon approval of the [Application for BPI Certification Renewal](#), Certified Professionals will receive an email notification from BPI confirming recertification and can then expect a certification packet in the mail within thirty (30) days of that notice.

3. Renewal Requirements

If the certification has expired or the Certified Professional does not remain current during any portion of the certification cycle, this policy does not apply. Certified Professionals will then need to retake the exams as if they were a new candidate.

6. Contact Information

Any questions regarding certification renewal may be submitted via email to Recertification@bpi.org or by calling (877) 274-1274 ext 292.

Appendix A – Written Exam Requirements

All individuals must use the following [Continuing Education Unit \(CEUs\) Policies and Procedures](#) to determine if an online exam is required for certification renewal. To bypass the online exam, a candidate must accumulate at least thirty (30) relevant CEUs over their three (3) year certification cycle.

Number of CEUs	Requirement
30 or more	No written exam required
10 – 29	Must successfully complete a 50-question online exam for each designation
0 – 9	Must successfully complete a 100-question online exam

In order to be counted toward certification renewal, CEUs must be submitted via the [CEU Portal](#) no less than thirty (30) days prior to the certification expiration date. CEUs submitted less than thirty (30) days prior may not be applied to the Certified Professional's record by the certification expiration date.

If a current certification expires prior to the CEUs being applied to a Certified Professional's record, they will not quality under this policy. Please keep in mind that CEUs expire after three (3) years. It is the Certified Professional's responsibility to ensure that CEUs are valid at the time of renewal.

Certified Professionals requiring testing accommodations should visit BPI's website for the proper [forms](#) and submit completed documentation to BPI at least two (2) weeks prior to scheduling exams.

Appendix B – Application for BPI Certification Renewal

Your application will not be considered unless all information is completed, signed, proof of experience is attached and dated. Please read the [BPI Certification Renewal Policies and Procedures](#) to see if you are eligible before applying. *Note: Proctors please login to your [Proctor Account](#) to view the Certification Renewal Requirements.
