

**At Green Home Logic (GHL), we are well aware that no two homes are alike. Furthermore, we understand that no two clients are alike. Therefore, we deal with each home and client on a case-by-case basis to provide a custom tailored package is developed to ensure the highest level of cost savings and comfort are achieved.**

Energy Auditors evaluate the energy efficiency, health and safety of a home, and use diagnostics equipment to identify areas for energy savings. Verify compliance of retrofit work performed based on work plans and standards. Develop reports that specify corrective actions to achieve optimal whole house performance. The Home Performance with Energy Star Program and the EmPower NY program reduces energy costs for low-income households by increasing the energy efficiency of their homes, while ensuring health and safety.

## **RESPONSIBILITIES**

### **General Functions**
