

Atlas Efficiency Solutions is a Central Texas based company specializing in home performance contracting and weatherization auditing. We are seeking to hire an experienced Energy Efficiency Assessor.

The Energy Efficiency Assessor will be responsible for performance of energy efficiency assessments of single family and multifamily properties throughout Central Texas.

Essentials of the Job:

- Conduct building envelope assessments according to BPI standards
- Perform diagnostic tests according to BPI standards (e.g., blower door test, combustion safety analysis).
- Complete an interior and exterior inspection of all areas of the property
- Collect data, take detailed notes, and take pictures using a digital camera
- Provide accurate reports to include recommendations for energy efficiency improvements, occupant comfort, and health/safety
- Proficiency in Windows 7 and Microsoft Word preferred
- Willingness to travel.

Background/Education:

- Building Performance Institute, Inc. (BPI) Building Analyst certification
- Construction background
- Organizational skills a must
