MT Weatherization is seeking a qualified Energy Auditor to work in our utility and residential rebate programs. The individual will be responsible for performing energy audits/whole house assessments with an emphasis on long term energy savings. The individual will also be responsible for educating consumers on their energy usage and energy conservation methods.

Job Responsibilities Include:

- Performing diagnostic, whole house, energy audits
- Performing required combustion safety testing
- Utilization of blower door, infrared, pressure pan, and other testing equipment
- Directly install minor weatherization upgrades at time of audit
- Complete detailed, formal, audit report of his/her findings
- Must fully understand standards, policies, and procedures for all programs
- Have a good understanding of "The House as a System"

Preferred Qualifications:

- BPI Building Analyst Certification
- 3 years of relevant construction experience
- 3 years of relevant experience in home energy conservation/weatherization
- Knowledge of utility weatherization or rebate programs
- OSHA 10 or OSHA 30 certification
- Excellent written, verbal, and customer service skills
- Valid driver's license with clean driving record

Interested applicants are encouraged to send their professional resume along with a brief cover letter, or any further questions to [jmowery@tennygroup.com](mailto:jmowery@tennygroup.com), or may call our office at (717) 525-9665 to inquire further or arrange an interview.

It is the policy of MT Weatherization to provide equal employment opportunity (EEO) to all persons regardless of age, color, national origin, disability, race, religion, creed, gender, sexual orientation, marital status, protected veteran status, or any other characteristic protected by federal, state or local law. All qualified applicants will receive consideration for employment without regard to any of the above.
