Education. Advocacy. Innovation.

### HVAC / Energy Efficiency Trainer

The New York State Weatherization Directors Association (NYSWDA) is seeking a dynamic and knowledgeable full-time HVAC tradesperson – with extensive residential heating and air conditioning experience – to lead HVAC/energy efficiency-related trainings in a lab/classroom setting at its Energy Efficiency Training Center in East Syracuse, NY. This is an excellent opportunity for you to take the next step in your professional career, while also positively affecting the HVAC industry in New York State.

Regular work hours M-F, no nights, weekends, or on-call. Vehicle and equipment provided for occasional regional training. Benefits include; accrued sick and vacation, 12 paid holidays, health insurance, cafeteria benefit plan, and a great team-oriented work environment.

Salary is based on experience.

Qualified candidates must possess a broad and varied background in residential HVAC, EPA 608, and basic HVAC hand tools. Experience in building science and/or BPI certifications a plus. Training experience also a plus, but not required. NYSWDA will provide the necessary support.

NYSWDA is an award-winning, nonprofit membership organization, and well respected for the adult learning it provides to professionals in the home performance and HVAC fields.

If joining the NYSWDA team is the career opportunity you're looking for, please send your resume to NYSWDA.
