ATLAS HOME PERFORMANCE

HOME ENERGY AUDITOR

NYC Boroughs, Long Island, and Westchester/Orange/Putnam/Rockland counties
Field Operations
Full-Time / Part-Time

About Us

Atlas Home Performance is a BPI-certified home energy efficiency contractor serving the New York City boroughs, Long Island and Westchester/Orange/Putnam/Rockland counties, helping homeowners reduce energy costs, improve comfort in their homes, and access New York State incentive programs including NYSERDA's EmPower+ and Comfort Home programs and Con Edison's Weather Ready program. We are a small, growing team committed to delivering high-quality, whole-home energy solutions.

Position Overview

We are looking for a knowledgeable and detail-oriented Home Energy Auditor to conduct comprehensive residential energy assessments. The auditor will perform on-site evaluations, analyze energy consumption, and provide homeowners with actionable recommendations to reduce energy use and costs. This is a field-based role serving clients across the New York City boroughs, Long Island, and Westchester, Putnam, Rockland, and Orange counties.

Position Details

Reports To	Owner / Operations Manager
Service Area	New York City boroughs, Long Island and Westchester/Orange/Putnam/Rockland counties
Compensation	$250/audit + 2% of sale $85K–$120K/yr depending on experience and certification tier (see table below); performance incentives available
Benefits	Training and BPI certification/renewal support, mileage reimbursement Referral program

Key Responsibilities

- **Energy Audits:** Conduct comprehensive residential energy assessments to BPI protocols, including combustion safety testing before and after air sealing work, and the inspection of insulation, ventilation, HVAC systems, windows, and appliances.
- **Compliance:** Make sure that audits and recommendations meet industry and program standards (BPI, NYSERDA, ConEd, PSEG-LI, RESNET, DOE, etc.).
- **Data Analysis:** Use diagnostic tools to evaluate energy loss and efficiency opportunities (blower door, thermal imaging camera, borescope, combustion analyzers).
- **Report Generation:** Develop detailed energy audit reports that outline findings, prioritize recommended improvements, identify potential energy savings, rebates and incentives.
- **Customer Education and Support:** Explain findings and prioritize recommendations to the customer that improve the energy efficiency of their homes. Assist homeowners in navigating rebate programs and financing options.

Qualifications

Required

- **Education: High** school diploma required. Degree in energy management, environmental science, construction or a related field is preferred.
- **Certifications:** BPI Building Analyst or Professional certification, or RESNET certification required, or interest in obtaining.
- **Experience:** 2+ years of experience in energy auditing, home inspections, weatherization, or a related field. Strong working knowledge of residential building systems, energy efficiency principles, and weatherization techniques
- **Other: Valid** driver's license in good standing and reliable transportation for field work throughout the Service Area

Preferred / A Plus

- Familiarity with NYSERDA (EmPower+, Comfort Home), Con Edison (Weather Ready, Comfort Ready Metro NY) and similar programs (PSEG-LI, etc.), and their submission platforms
- Experience working with older residential housing stock common in the Service Area
- Experience with blower door-directed air sealing and dense-pack insulation installation

Skills & Attributes

- Excellent communication and customer service skills — ability to explain technical findings clearly to homeowners and work with contractors
- Detail-oriented with strong analytical and problem-solving abilities
- Ability to work independently and manage multiple audits per week
- Comfortable working in attics, basements, crawlspaces, and confined spaces, ability to lift and/or move up to 50lbs.
- Professional, reliable, and safety-conscious at all times

Compensation, Training & Growth

- Competitive pay commensurate with experience, with performance incentives
- Training and certification support
- Opportunity to make a direct impact on energy conservation and home comfort in your community
- Career growth potential in the rapidly expanding field of residential energy efficiency
- Participation in New York State clean energy programs with strong job stability
- Referral program if you help us grow our team (Auditors, Crew Lead, Crew Member)
