Part 5 – Certifications

- The following information is required to participate in the BPI Rating Program. Candidates may be asked to submit proof of certificate or ID card. Certification is subject to verification and must be maintained in good standing.
- The BPI Rating Program requires that the Qualified Home Energy Score (HES) Assessor hold either the Building Science Principles (BSP) Certificate of Knowledge or one of the following BPI certifications (Building Analyst, Building Analyst-Professional, Energy Auditor, or Quality Control Inspector) or applies for provisional status below with alternate credentials.
- Alternate credentials that meet U.S. Department of Energy’s (DOE’s) minimum credentials for Home Energy Score Assessors will be considered for provisional status for one year, and can be listed in the space provided below.
- Candidates must also pass the DOE’s FREE Home Energy Score Assessor exams. Qualified HES Assessors in good standing are not required to re-take the Home Energy Score Assessor exams.
- Please note: A BPI Rater Company may oversee other certified professionals who serve as field technicians to collect in-home information, but the Qualified HES Assessor is responsible for completing ratings, for ensuring accurate data collection from all field technicians and for certifying that all processes and procedures are followed.

Please list those candidates that hold either the BSP Certificate or the listed active BPI certifications. If an active BPI certification, please list their Candidate ID #.

Individuals meeting DOE’s minimum credentials criteria for Home Energy Score Assessors, e.g. NATE, NARI, ASHI, RESNET, etc. and other credentialed raters may apply for provisional status under the alternate credential with affidavit and appropriate proof.

Complete the following information and check the certification(s) or certificate that apply:

Customer Issue Resolution Policy

1. Customer complaints will be responded to by phone within 24-hours of receiving a complaint.
2. The customer shall be contacted directly by a Certified Professional or their Supervisor, depending on the nature of the complaint. Follow-up will not be left to administrative personnel.
3. Issues of an emergency nature shall be responded to immediately. Emergency repairs must be made immediately to ensure the safety of the client and the home. Emergency issues may include but are not limited to any of the following: no heat calls in cold weather, suspected CO in the home, backdrafting of heating and/or DHW appliances, water leaks and/or broken pipes, no-cooling calls in very hot weather particularly for elderly clients.
4. Complaints shall be documented and included in the customer's file, including: the nature of the complaint, the name of the person responding to the complaint, the resolution of the problem, copies of all written correspondence related to the issue, and the dates and times of all client contact relating to the issue.
5. Follow up with complaints related to the quality of work, errors, omissions in construction or installation process and/or property damage shall include a site visit and inspection of the area in question. Photographs shall be taken of all areas identified in the complaint and kept on record in the client file.
6. Correction of improperly installed materials and repair of damaged property shall be completed based on mutual agreement of the client as determined by mutual agreement prior to completing the repair. Repairs that are completed prior to obtaining client approval may not be billed to the client.
7. All reasonable efforts will be made by the company to ensure a timely and fair resolution to all customers' issues.
8. In the unlikely event that a solution cannot be reached between contractor and the client, a standard arbitration process will be initiated. In an effort to avoid such an undesirable circumstance, the contractor will exhaust every reasonable measure to resolve the issue, including three attempts to achieve complete customer satisfaction.
