

Job Ad: Energy Project Manager

College of the Atlantic seeks a full-time, temporary (18-month) **Energy Project Manager** to join the **Community Energy Center**. The successful candidate will be highly organized and detail-oriented with the ability to work collaboratively with faculty, staff, and students to lead a community-based energy upgrade program. The Energy Project Manager will oversee and support students conducting home energy audits on Great Cranberry Island for the 2024 summer and in other locations in Maine in 2025. A college degree in engineering, physics, environmental science, or another field related to renewable energy or energy conservation is preferred, although we also welcome candidates with five or more years of construction experience, particularly those with a plumbing, HVAC/refrigeration, or electrical license.

The salary range for this position is \$50,000-\$60,000/year, based on experience. This position is funded for 18 months and may be extended if additional funding becomes available. Benefits include health, dental, and life insurances, retirement, vacation, and tuition relief for employees and dependents. Housing for summer 2024 on Great Cranberry Island will be provided.

A full job description is available at <https://www.coa.edu/human-resources/job-openings/>. Please submit a cover letter, resume, and contact information for three references electronically to **David Gibson, Director of Energy**, dgibson@coa.edu with 'Application for Energy Project Manager' in the subject line. Applications will be considered until the position is filled, but for full consideration, please submit materials no later than February 29, 2024.
