### **Field Technician Job Posting**

Note: Apply through the link below.

#### **Positions available:**

Field Technician trainee

Field Technician

Field technician Lead

#### **Job description:**

Balance Point Home Performance is a full-service testing and construction firm that applies building science principles to residential construction projects. The work looks like typical construction but the outcomes for our customers are extraordinary. Installing new energy efficient heating, cooling, water heating, water pumping, lighting, ventilation, insulation, air barrier and moisture management systems in existing and new residential buildings. Tasks will include all facets of this work from removal of existing systems to installation of new equipment. Related tasks like managing a clean job site and erecting dust containment structures will be required. Diagnostic testing and commissioning are conducted on all newly installed systems. Testing and commissioning tasks include blower door testing, duct airflow measurements, electrical power consumption measurements, combustion efficiency testing, refrigerant pressure and temperature testing as well as infrared assessment of insulated structures.

#### **Requirements:**

High School diploma or GED

Driver's license

Bank account to receive direct deposit payments
