

LEAD WEATHERIZATION INSTALLER

Casco Bay Insulation is an industry leader specializing in a comprehensive, whole house approach to residential energy efficiency. We are a small company that recognizes the value of our staff. We take great pride in the quality of our work and strive to foster an upbeat, friendly environment. We provide great leadership and a collaborative atmosphere, offering excellent benefits and opportunities to advance as our company grows. If you have experience in the weatherization industry and would like an opportunity to advance your career this might be a great fit for you.

About You

We are looking for someone who is dedicated to a job well done and is curious about building science. Candidates must have a minimum of one year of cellulose installation experience to be considered. The available position involves working primarily in existing homes performing weatherization improvements in basements and attics. You will be the lead installer and mentor to another installer learning the ropes. The position is customer facing under the direction of the Project Manager.

Job Responsibilities

- Perform air sealing, install netting, cellulose, and air barriers; WE DO NOT INSTALL FIBERGLASS INSULATION
- Liaison between project manager and homeowner
- Operate insulation equipment and drive a box truck
- Maintain all equipment and tools in good working condition
- Work safely and respectfully with the other team members
- Take pride in high quality workmanship

Skills, Experience, & Talents

- Must have a valid driver's license
- Construction, insulation, and hand tool experience a must
- Ability to use good judgement and problem-solving skills
- Ability to work in attics, basements, and crawl spaces
- Able to work on ladders and scaffolding (rarely over 10ft)
- Must be able to lift 50lbs
