Job Description

Are you a critical thinker who thrives in a fast-paced organization? Are you interested in a career that makes a significant impact, not only on consumers' wallets but also on the environment? We have an available opportunity as a **Reporting and Data Analytics Supervisor**. The position oversees the data management and analytics of all utility energy efficiency programs.

You will:

- Support the design and implementation of EE programs and initiatives that achieve regulatory, legislative, and company goals.
- Manage all internal and external reporting activities associated with EE programs. Ensures all regulatory reporting requirements are completed accurately, delivered on-schedule, and subsequent data requests are fulfilled in a timely manner.
- Manage annual evaluation, measurement and verification (EM&V) processes to ensure programs are operating effectively, regulatory requirements are achieved, and benefits of EE programs are maximized.
- Support regulatory efforts aimed at developing and sustaining EE programs by working closely with Regulatory Affairs, Strategy, Public Policy, Sustainability, Customer Experience, Sales, Marketing, Digital, and external stakeholders to ensure proposed programs are approved and current programs are meeting objectives and goals.
- Manage and carries out routine and ad hoc data analysis and data mining activities related to EE program operations.
- Develop monthly, annual and program cycle forecasts to establish performance targets for EE programs. Monitors Key Performance Indicators (KPI's) against forecasts.
- Serve as Company representative at various regulatory workgroups and is responsible for managing tasking and deliverables stemming from the workgroups. Also represents the Company and EE team through interaction with vendors, contractors, partner groups, and regulatory entities.
- Manage EE program data visualization projects by communicating data through insightful dashboards, highlighting various KPI's to present program performance to a variety of audiences.
- Serve as a supervisor to a small (1-3 personnel) team of individual contributors and may act as manager for various project teams. As

About Us

WGL Holdings, Inc. is a public utility holding company and the parent company of WGL, a diversified energy business that provides natural gas, electricity, green power, carbon reduction and energy services. Our calling as a company is to make energy surprisingly easy - for our employees, for our community and for all our customers. WGL and its affiliates are committed to equal employment opportunity and providing reasonable accommodations to applicants with physical and/or mental disabilities. We value and encourage diversity and solicit applications from all qualified applicants without regard to race, ethnicity, religion, gender, age, national origin, marital status, sexual orientation, gender identity, family responsibilities, matriculation, physical or mental disabilities, political affiliation, genetic information, status as a protected veteran or any other characteristic protected by federal, state, or local law.

contributors and may act as manager for various project teams. Assists in the hiring of new staff.

- Perform other projects or special assignments as required.

Must have:

- Bachelor's degree in Business Analytics, Engineering, Economics, Environmental Policy or related field with a minimum 5 years of relevant experience. Experience can be used in lieu of education.
- Ability to serve in a supervisory role and facilitate the work activities of junior personnel.
- Proven subject matter expertise in data management, analytics, and visualization; including experience using advanced Microsoft Excel functions (e.g. Power Query), SQL, and relational databases.
- Applicable knowledge of federal, state and local energy efficiency and sustainability legislation and regulations.
- Working knowledge of Evaluation, Monitoring, and Verification (EM&V) activities and projects as they relate to EE programs.

Prefer to have:

- Graduate degree in a related field
- Experience in a supervisory/leadership role
- Energy industry and energy efficiency experience
- Experience using Microsoft Power BI

WGL is part of the WGL family of companies, which are now indirect wholly-owned subsidiaries of AltaGas.

WGL is an EO employer – M/F/Vets/Disabled
